

Amstore Muso Pack – easy as 1, 2, 3!

Congratulations on choosing Amstore Muso Pack
for your CD/DVD release.

HERE ARE A FEW TIPS FOR ASSEMBLING MORE THAN ONE AT A TIME

ONE:

Pre-fold the Inserts along the perforations; try to get a nice even right-angle. If it's not straight enough, they won't fit into the case and if they fold over too far you run the risk of scrunching the spine when the tray goes in.

TWO:

- a. Put the Insert into the CD Case
- b. Click the Insert Tray into the Case
- c. Clip CD/DVD onto the Tray – try not to rotate the discs on the tray as they can collect scratches from particles of dust etc.

THREE:

When you have a stack of cases ready, then and only then, put in the booklets – It helps to ensure that you haven't left anything out - such as CD's!
